Newsletter Week 4 Term Three

Tena koutou katoa

Our junior space has been lucky enough to have new furniture delivered this past week.

The new furniture that has been purchased can be used in multiple ways and natural finishes were chose to lighten up the space too. We are working on developing highly engaging classroom environments where our learners want to be and are excited to be. Feel free to pop up to school and check it out.

We continue to focus on the science curriculum this term. Our senior students are using science ideas to inform their persuasive speeches which will be presented in week 5. Thank you to the families that have been heling our learners research at home and decide on speech topics.

A reminder the New Zealand curriculum states-

"In science, students explore how both the natural physical world and science itself work so that they can participate as critical, informed, and responsible citizens in a society in which science plays a significant role"

We hope to explore the science curriculum in ways that impact ourselves and our community.

Weeks three and four of this term we are unpacking DRIVE. Drive is one of our learner dispositions at Arohena School and part of our learners showing Arohena PRIDE. We have interpreted DRIVE as being "a determined urge to attain a goal." We know that we show DRIVE when we compete in events like the Tough Guy and Gal challenge, learn words for the production and learn routines for the Gynsports competition. I wonder if there are ways at home that our tamariki show DRIVE too?
